

Education Queensland International - Student Testimonials

"I am only seventeen years old and I must live with my homestay which is my second family. Talking with homestay parents will help your English and I am lucky because I have Chinese food on the Gold Coast everyday.

Here there are a lot of beaches for swimming and some interesting parks, the air is clean and the environment is also very clean. The Gold Coast is a good place to improve our English because it is not like Sydney which has a lot of Chinese people. So I think HSP can help us to study English and then we can go to High School on the beautiful Gold Coast to study."

Ai Na

"The first time I came to HSP I felt it was different, classes are interactive and the activities are fun. Teachers always help us practise writing, speaking, reading and listening, also they teach us how to solve language problems. My English level was at intermediate stage when I arrived but now my English level has improved to a high intermediate level. Although, I still have to improve my speaking and writing skills.

In my spare time, I always talk with my homestay, do some shopping or hang out with my new friends. My homestay parents are good, they help me so much and they treat me like their family. I think living and studying on the Gold Coast is a great choice because here the weather is warm, the sky is blue and the people here are very friendly. I feel happy studying at Robina State High School HSP."

Angela Pan

"When I arrived in Australia, I thought the Australian city of the Gold Coast was a beautiful city. That is the reason why I chose to study on the Gold Coast. I study English in HSP at Robina State High School, which is a good school.

When I arrived in Australia, my level of English was not good, but now it is. When someone uses English to talk to me I can understand the meaning. I think HSP has helped me to improve my English. We speak English to each other everyday and we spend a lot of time listening, reading and writing. I write an article every week and I always read some English books. If I have not been successful in graduating, I think I will work hard everyday next term. HSP can help me improve my English. My classmates are very friendly, they come from different countries with different cultures and we enjoy many wonderful activities and the teachers are caring towards us. How is that for a great place to study!

I always listen to English music and read English books in my spare time. Australian people are friendly, if you need help, they will help you. I think Australia is really good and Robina State High School and HSP is fantastic. Welcome to Robina State High School, I believe you can fall in love with this place."
